

# Meet the Dean

## HKAA Boys's Dorm Dean

### JERIEL CHUAH

Mr. Chuah enjoys traveling, snowboarding, and playing basketball with his friends and students. He was born in Hong Kong, but he lived in the US for approximately ten years. This gave him a unique perspective, understanding, and appreciation of Chinese and American cultures.

After completing his education at Andrews University, Jerial served in the HKAA marketing department when HKAA was at its infancy. Then he began serving as the dormitory dean for the HKAC/HKAA. He has been in that position since 2014.

One of Jerial's joys is seeing residents challenge themselves while growing and becoming better persons. Students come into the dormitory as strangers, but they leave as friends.

Jerial has found that the students who embrace dormitory life find many opportunities to lead and serve in their community. Because they come from diverse backgrounds, their worldview is enriched, and they learn to appreciate, respect, and work with people of different backgrounds. This ultimately prepares them to become positive contributors to our global community.
